Konbanwa:

Hajimemashite? Are you learning any Japanese? Hope all is fine N.Y. wise! Rec, your letter we noted in Re. Look like it takes ≈ 3 days from post mark, that about normal for distance mail in USA. I suppose as the USPS goes on a $ diet, Sat mail, no more, a letter written on Thur or Fri, perhaps 4-5 days. No luck with the EDCF any visit yet? I don't think they will contact you, you have to call, but don't let them misuse your visiting privilege.

If you have any problems, I don't think visitation has it "act" together, for me, I have problems with them. They need to be check out by Sec. of Corrections.

Thanks for sharing Wall Street. Today big Buzz on on "Facebook's IPO", open at $38.00 ↑ to ≈ $45.00 ↓ to close at $38.23. Third biggest IPO offering in history. Did you buy any? 12-3-3-JS inner cities. ¶ Delmonico's sounds good, I sure miss a good steak, I bet expensive. How about Peter Lugers Steakhouse? Every had coffee at "Blue Bottle Coffee"? ¶ Do hope you and wife can travel to Japan. I was in the Air Force ≈ 2 years there, late 60's many fond memories. If you go, something to do: Downtown Tokyo, "Ginza Strip", like N.Y. "Time Square", visit at night X. Bullet train either south or north, weekend end etc, in Mt. Fuji area, if daring, climb Mt. Fuji, top the mountain, watch the Sunrise. There paths thousands of people who trek to the top each day. Travel Tokyo rail system, very good, all major places, street, stations in English, very easy to get around. Southern Japan, sandy beaches, northern cooler, but mountains + scenic, hot water bath hotel retreats. Spring - Cherry Bloom time beautiful, visit their Parks any time, Sunday is good day to people watch at the parks. Tons of night clubs + life, suggest, just get off at any stations, and walk the local streets, nice little friendly bars. Their language easy to learn or few get around words to impress them, like Left-Hidari, Right-Migi, Straightahead-Massuga, you probably heard this one "Takusan", mean alot, or little - "Sakoshi", telephone "Denwa", water "Mizu". ¶ One of my Bucket lists, was to go back for a visit or at Okinawa, I was also station there for a while or did T.D. to the islands around it. But my Bucket has a big hole in it anymore, but I can still

dream. ¶ Everything about norm here. Pretty dry for May, ~~so~~ grass is rather dull looking. Birds very active. Western's King Birds fill the sky, ones building a nest above my window. The F.D.C.F has moved about 4x now, the fresh cut grass smell good - no not "many"! ¶ Visit to the dentist the other day; I don't get out very often (my choice) but, the walk to the "Big House", as we inmates, call it, a kaleidoscope of colors, sky, fresh air, sunrays, sounds, birds, natures, flowers, inmates' garden, enjoy each minute, those that are out each day, take so much for granted. ¶ Do you live in an apartment, or N.Y. suburbs, travel the "Tubes" or 'Subs' to work? If you live where you can grow ~~the~~ outdoor plants, grow a "Sunflower" for me, our state flower, this fall the birds will love you for the seeds. ¶ Do you play Chess? We could start a game as we write back and forth; I play several people by mail, include in with the letter the moves on a sheets. ¶ Fri night here, listening to evening mood music, "Radio Kansas" - Night Crossing, took a power nap after supper, "NBR"-PBS + news. Weekend, slower pace, although I usually stick to a regular routine. Reading the book "The Girl with the Dragon Tattoo", very good, written by Stieg Larsson. Yesterday's received a book from a Pen/Pal friend title "The Fear Index" a run away Stock market crash - "mother" of all

market crashes. Book looks good. All books, magazines have to come from a vendor. Depending on the friend and their requests, and money to cover postage, I read the book, and mail it to them, sign it, write a few notes inside, sort of a collector item. To well, you take care, enjoy Waning Spring, Summer soon to start - another season under our belts. Hope E.D.C.F. come through for you. Let me know.

Truly Your,

Rec. letter as noted ↑. Hope all is well your way.

¶ I did get a print out on Visitation, you were [Denied per DWP Snyder (5/15/12)], I have no idea why, or who, is DWP Snyder? If you think in error, contact the Topeka Office, + pursue, that the only thing or suggestion I have. ¶ Back up plan, would be for me, to call you on land-line or cell, either has to be approved by the 'F' (F = Facility). June is my next month to turn in new #'s. I can do so every 120 Days, so next would be Oct 2012. The other is for us to continue letters, sort of a Friend-ship, associate, well you not behind bars, I look up informal friends, non-match, perhaps letter acquaintance at this point. ¶ Sorry, the 'F' has their rules, your the 1st I've heard about being turn down. Surely can't be your a past employment record, or what you wanted to do. Mr. John Douglas was listed as an investigator, by the way, I did remove his name off the visitor list. Every body else is listed as relative or Friend, including you, but denied.

Yes Facebook, could be U.S. History biggest "Con", billion lost on open day or shortly afterward. My Fantasy Portfolio did okay, I called my broker, gave him X amount of cash to buy early, as it begun to rise, there was a Stock market hitch, so many people wanted it, the process bog down, but by mid day it reach its peak

You would have to set up an account or place $ on my Fame I in return could put $ in a phone debt system to call you. Once your # approved, we get a free minute to set things up with the phone Co. More in next letter if interested. thanks

I had my broker sell after it started to slow toward the peak, I use a .03 to .05 change either way. He got .002% on a sale, so if he sells $100,000 worth of stock, he or his Commission is ≈ $200.00, if it's a $1,000,000, it $2000.00 or forth. I leave my I.P.O. account with him, he can use as a bank would, just make me a profit, past profit added to running balance, adds up quickly. ¶ Well, I never have the chance of tasting Lugen's steak, but as a poor inmate, I would be ready to try. I miss a good steak, or the smell of one being grilled out door. ¶ Hope you can go to Japan, I think you would enjoy it. Believe they also have what they call "Kobe Steak", very tender, but expensive. My Favorite "Bar Hopping" was to have one of two their local Japan beer, 16-32 oz, then switch to "Susi House" either warm drink Soskie (SP), some fried rice, fried tempura, or cold Soskie (JP), cheese, & hard boil eggs. They also make a good whiskey but the name escape me at the present "Suntory" Stanory, something like that. ¶ I couldn't figure out whether the Co-op + apartment one or the same, or you own a Co-op, and live in an another apartment. If so, a Co-op, what is that? Is that like Cardo's, or you & someone have living rights to one place, with the option of living there, rental, or spliting the living time with the other person, like a summer or winter place. ¶ Much needed rain came in yesterday. Very green today, as always in Ks, T/storms are usually the norm in the Spring and Summer time. ¶ Summer Solstice on 6-20, Find a building in N.Y (make that your "Stonehedge") mark the rising Sun, if not cloudy, check it next year, should be the same. ¶ Guess we see ~~what~~ want happens next. Oh, do you play chess, or have I ask that before. Well, you take care. Let me know if any luck at Topeka or here.

Your Truly,
Dennis

Hope all is fine back your way; News forcast yesterday, your 1st Big Heat Wave of the season, for H.E.'s states, the Summer has begun. ¶ Bad news from the 'F' (Facility), rec. a notice yesterday (6-20) you are deined due to being; Per note: ↓

"Your visitor's application was denied by DWP Snyder Department personnel shall not authorize media personnel to interview or photograph an inmate within a Correctional Facility."

If I were you I contact Topeka, and tell them it a friendly visit only by Video, nothing else. To me you are no differ than any one else on "Friendly visits". I wouldn't deal with people here, go over their heads, and see what happen. Hey, you might have a new story or short story to write. The other action, would for you to team up with a Criminal investigator, some one of importance, they some times can open doors. Naturally I could only talk in generality due to my "Life-Right" with the VF's. ¶ The last investigator that contacted me in letter form, and I kept his letter, but did not write back due to "Life-Right"; anyway you might contact him:
