

HOW IT WORKS

01.

Answer questions online.

Describe your symptoms, risk factors, and your health history in our online assessment.

02.

Our medical team reviews.

A Nurx provider will evaluate whether home testing for COVID-19 is safe and appropriate for you.

03.

Get a test kit delivered overnight.

Our partner lab overnights you a home test kit with clear instructions and a prepaid envelope for overnight return.

04.

Collect your sample.

The test kit includes a throat swab to check for COVID-19. Collecting your sample takes just a few minutes.

05.

Get results and advice.

Within 48 hours of your sample arriving at the lab a member of our medical team will be in touch with results and next steps. You have unlimited access to our team for follow-up advice.
