This is what liberals /neoliberals have never understood - or taken responsibility for - that they have played a major part in creating the precise conditions for fascism to flourish - Obama corporatist democrats - are to the right of Richard Nixon on domestic policy - Don't believe me - look it up - and dems have sold out the working class for decades - and this kind of bought and paid- for betrayal of principals , fairness - historical precedent -any sense of moral or intellectual honesty -

The kind of brutal selfish horrific actions one only does - because they can get away with it -

Cause all yr Yale and Harvard buddies will tell you how great and smart you all are - and they are all in bed with all the all the same big , big money power players- And we run the world - right ? - this kind of staggering amoral bulls**t - is one of the main reason (yes there are others) trumps demagoguery works on people. The democratic elite ARE full of sl**t -

Imagine arguing this - in these times . TOTAL insanity- or in another sense a totally corrupt rigging of the game for concentrated wealth- you are literally working to preserve the Koch brothers - musk gates besos - all the federalist society billionaires who bought the courts - to preserve and expand their plunder -

Imagine what FDR would say about such a proposed law ?!

Don't worry fellas - the democrats will save the .0000001 % from paying tax -

the hubris to do this - is staggering - it's a sham and an insult to everyone's basic intelligence - the contempt for people -

To even attempt this ...

Unbelievable.

What katyal said about federalist society judges is sad and sickening - but one could write it off as insider baseball / professional respect (I guess)

BUT Imagine arguing this s**t - to make taxing the .000000001 % illegal. Arguing against a wealth tax for besos musk gates - basically it doesn't count as taxable income unless it's cash ? Whoa - I see what you did their Neal - that's clever !

Think of the Eisenhower corporate tax rates -

The minimum wage is 7 dollars -

Katyal is well and good outing trumps lawlessness and putting the fascists in their place legally -

But seems like he's working on achieving their greatest victory - so we find out he's working on making it illegal to tax the wealthiest oligarchs in the history of earth ?

This - is " let them eat cake " hubris

If this story from jacobin is not true katyal should sue them for character defamation and slander -

If it's as reported -

Wanna know the blowback when

Corporatist dems sell us out for the 7000 time? When " hope " and change is just another branded hustle. It's savage

It's here -

Sensing its popularity, Obama's former Supreme Court lawyer and a Louisiana Democrat are using an obscure corporate taxation case to try to make a federal wealth tax illegal before it even exists. jacobin.com/2023/09/wealth...
