

Afroman tells TMZ...

Essentially a racist judge signed a fictitious false warrant, lying on the warrant, accusing me of kidnapping and drug trafficking. The warrant put the Adams county sheriff in a position to attempt to kill me. After the Adams County Sheriff. Burglarized vandalized and destroyed my property. They became thieves and stole my money. After they stole my money they became criminals. After they became criminals they lost their right of privacy. My house is my property, my video camera films, everything on my property as they begin, stealing my money, disconnecting plus destroying my video camera system, they became my property ! Criminals caught in the act, of vandalizing and stealing money. My video footage is my property. I used it to identify the criminals who broke into my house, and stole my money. I used it to identify criminals, who broke into my house, stole my money and disconnected my home security system. I use my footage of my property to raise money to pay for the damages they done and to identify the criminals operating inside of the sheriff department that stole my money Ransack my house and disconnected my video cameras. Not knowing who the criminals were operating in the Adams County sheriff's department I gave them humorous nicknames. I am a law-abiding taxpaying citizens who was violated by criminals camouflaged by law-enforcement! I use my property,/my video footage to make up for damages and to make the public aware of criminals disguised as law-enforcement Stealing money and disconnecting cameras.
