Thank you for being gracious and understanding
and kind. Lurve + forgiving. This is your soul.
Your interior comportment is the first thing about
you that I fell in love with. When one sees qualities
in others that they wish they had it draws them.
So it is with me to you. I learned something more of you
That is speakably beautiful + heroic. And I can
only be more in love with you. You conquered the
monster in me with your love emanating from your
truly beautiful + heart + soul. I have no option but

to love you more + better.
You are an angel. And the kind of
woman I have wanted all my life XXX
