RE: Defamation of Axl Rose

Dear Mr. Gleason:

This law firm represents Erin Everly. I am writing relating to the false and defamatory statements on your website and your art "exhibit".

Ms. Everly unequivocally denies that Axl Rose ever painted those statements on her garage door. In the event the demands made in Mr. Frid's September 26, 2012 letter are not fully met, please be advised that Ms. Everly will tell the truth and testify in any litigation Axl Rose may have against you and Laura London for this blatant and malicious defamation of his character.

Govern yourself accordingly,
