RE: CEASE & DESIST DEMAND  
on behalf of the minor child of George Floyd

Mr. West:

We are contacting you regarding your recent statements in reference to George Floyd and his manner of death. Our office represents Mr. Floyd's minor child and her mother. As you can expect, our clients are very distressed and hurt by the allegations you made. Mr. Floyd's cause of death is well-settled through evidence presented in courts of law during the criminal and civil trials that were the result of his untimely and horrific death. Nevertheless, you have maliciously made statements that are inaccurate and unfounded, causing damage to Mr. Floyd's estate and his family.

The Witherspoon Law Group, on behalf of our clients, hereby demands that you immediately cease and desist, and remove the 'Drink Champs' interview and all similar statements regarding George Floyd from every podcast, website, advertisement, and social media site, no matter the platform or medium.

Further, The Witherspoon Law Group hereby demands that you, your attorneys, employees, agents, partners, associates, and representatives refrain from publishing or causing to be published any other audio, video, statement, post, etc. regarding George Floyd, his estate, his family, and the circumstances surrounding his death, including but not limited to his manner of death.

We will take all appropriate and necessary legal action if you, your attorneys, employees, agents, partners, associates, and/or representatives fail to comply with this demand.

Sincerely,

  
Nuru Witherspoon

  
Kay Harper Williams
