Main jail

Dear honorable judge Vsan,

I am sending you this letter to save my life. Recently a deputy at the Broward County main jail gave an inmate the coronavirus. This matter makes me afraid because my immune system is very weak. And here at the jail they aren't testing anyone. I'm being held on a violation of probation with a new charge. I am innocent on the new charge that I'm charged with. But being that I was on probation I'm being held awaiting to be proven innocent. I am asking to be given a bond so I can avoid catching the coronavirus. Even if it's only to be out on bond and house arrest until this disease blows over. I've been here 21 months and haven't been in any trouble. Since the age of 17 I've had you as a judge. I am now 24. Never have I missed court or failed a drug test since being in your court room. I ask for this request so my children won't be without a father and my mom without a son. Please and thank you judge and I hope that you and your family are safe as well.
