NARRATIVE:

On Wednesday, April 15, 2015, at approximately 0900 hours, ISU Lieutenant P. Chanelo and I arrived at the Kern County Coroner's Office, in Bakersfield, CA, for the scheduled autopsy of Inmate [REDACTED]. At approximately 0915 hours, Autopsy assistants Alma Mendez and Laila Shaibi unsealed the body bag containing inmate [REDACTED] body. They photographed and prepared the body and, shortly thereafter, Autopsy Surgeon, Dr. Carpenter commenced the autopsy (coroner case # C00720-15). Assistant Shaibi took digital photographs of [REDACTED] throughout the various stages of the autopsy at the direction of Dr. Carpenter. Various samples were collected by Dr. Carpenter or Ms. Shaibi, including fingernail swabs and clippings, sexual assault kit, hair samples, and a DNA blood sample card.

At approximately 1245 hours, Dr. Carpenter concluded the autopsy at which time he stated the cause of death to be "Neck Compression Asphyxia". Ms. Shaibi then relinquished to me the samples collected during the autopsy including two (2) CD-R disks containing a total of forty five (45) images. She then assisted me by collecting four sets of fingerprints from [REDACTED] body which she also relinquished to me.
