Miss Ariana Grande
c/o Mr. Scott "Scooter" Braun

Dear Miss Grande and Mr. Braun,

LaserAway is the nation's leader in laser tattoo removal and we know Ariana Grande has been "grilled" over the meaning of her new tattoo. Luckily mistakes can be lasered away by one of our trained clinicians, so that she can start fresh with that 7 rings tattoo she intended.

We would like to offer Miss Grande complimentary laser tattoo removal treatments at any one of our 46 locations and also a paid position as a LaserAway spokesperson. We would like Miss Grande to participate in one photo/video shoot at one of LaserAway's state-of-the-art locations to obtain content for LaserAway's use in social media, print, and viral media outlets. We would also request that Miss Grande post one photo or video per month of the LaserAway content to her own social media account for a twelve (12) month consecutive period.

For the above services, LaserAway is offering to pay a fee that would be commensurate with her "A-List" industry stature and celebrity reach that will be similar to rates she has been paid for similar work she has done. Additionally, LaserAway will pay for first class air travel for four people, including 5 star hotel and exclusive ground transportation and HMU of her choice while working with LaserAway.

LaserAway, the nation's leading aesthetic dermatology group, thinks that Miss Grande could influence people to be empowered to erase unwanted ink just as she motivates us all with her killer singing voice.

Thank u, next tiny barbecue grill.

Sincerely,

Todd Heckmann
President
LaserAway
