I need to run Kerry thru interviews over phone - so here is study material

Interview will be after 7th/8th ie court date.

KERRY - be focused, clear and quite brash and 'no one messes with me and my daughter' high horse attitude during interview...not defensive but anyone who criticises me should take a close look at themselves and is jealous. If you don't or cannot answer a questions use this line. "Look I don't know what you are trying to get at but the reality is Britney's a fanastic child I am a fantastic mum and no one tells me whats wrong or right to do with my daughter

Or simply - that's personal information and I think talking about what I have talked about so far is personal enough

BRITNEY - ENSURE SHE HAS A FEWLINES AND CAN TALK ABOUT THIS, MCIEHLLE TO WATCH BRITNEY ALL TIME AND NOT TO BE PARTED FROM HER AND BRITNEY NOT TO BE LEFT WITH ANYONE FROM ABC AMERICA EVER OK

Also feel free to add bits to these answers or rework them so they sound more like you or have a few other answers worked out

You must be super ready with answers like below

Quotes:

Please use these quotes or something similar – learn them

"Britney is named after pop idol Britney Spears. I am a trained beautician and no one can tell me I am not doing the right thing. We share the Botox so I make sure it's safe before I use it on my baby! It's my view Botox is preventative and it's going to ensure my daughter always has baby faced skin. The fillers and waxing are also critical. My daughter is going to be a star one day perhaps a model, an actress a singer or entertainer and I want to make sure she's got the best start in life. I think more mothers should do it,"

"I am pleased Britneyr is probably the youngest child in the world to have Botox injections and fillers for beauty purposes and that's going to help her on the road to stardom."

"People moan she will get frozen face. That's rubbish look at Nicole Kidman people said she had frozen face and when she had her kid Sunday she stopped and her lines returned. So the small and tiny amounts I give my daughter will wear off if I think its over done and I check on myself as well."

"I use Botox and have done for some time. I am addicted to it and self administer because it's a great way to build confidence and stop wrinkles. If its good enough for me its good enough for Britney."

"She's going to be famous thanks to me giving her injections so young and letting her have specialist

waxing. I am not doing her any harm,"

Britney now asks for top ups without me checking. She likes to study her face and lips for wrinkles and loves looking at magazines

Quote from Britney can she learn: "I want to be like all the celebrities. Everyone at school thinks it's so cool I have all the treatments. They want to be like me. I check every night for wrinkles. The waxing means I feel good at ballet and swimming and the injections used to hurt now I don't cry that much. I also want a boob and nose job as soon as possible as all the singers I like have one,"

Kerry quote "It's a great mum and daughter bonding thing as well. I think it's fantastic she tells me when she needs an injection top up or wax. It shows she's concerned with her beauty regime. Like me she's obsessed with looking beautiful. Her face will never have wrinkles and she will never be fat. She's asked for more Botox for her 9th birthday and eyebrow tattooing," claims single mum Kerry who admits she also has her daughter on a strict, no junk food and calorie controlled diet.

"I am not alone in giving my daughter treatments. There is a trend which originates from mums who want their kids to win acting and roles in commercials and from pageants where mums and dads allow their children to have Botox and fillers in the desperate hope of winning the crown. I also know for a fact many parents are now visiting surgeons or travelling overseas and telling doctors their children are being bullied in attempts to have the procedures like breast implants, liposuction for girls as young as 13-14 done and Botox or fillers for even younger children so the fact I am doing it is no big deal. Look around you look at Willow Smith the girl is just 10 and has a stylist, makeup on all the time, designer clothes kids want to be like her."

"Everyone is doing it and talking about it. I don't want my daughter left behind. I am not doing anything illegal or wrong." In the UK and USA there are no criminal laws which stop a child having these types of procedures. The medical industry self regulates and every doctor agrees they simply self regulate. I decided if they wouldn't do it as I'd been using it myself I would

"Doctors have told me that as bullying has an even greater impact on children's lives there is a rise in the number of parents wanting ear pinning, nose jobs, lip filling work and breast jobs for their teens and in the USA and here a boob job has become the must have Sweet 16, 18th birthday or high school graduation gift as children demand their parents pay to make them look beautiful with many frazzled mums and dads relying on trips to Brazil or Mexico for the must have surgeries."

"Brittney is a tween ager and she deserves Botox and fillers if she said stop I would say fine and stop."

"As a tween ager if she has Botox and fillers now as her skin develops and grows the Botox and fillers will ensure no wrinkles ever develop."

"I am realist if you want to be beautiful you have to start as early as possible. I give Britney between 1-2 mls of a saline and Botox solution per session. In the past 12 months she has had different parts of her face and lips injected 4 times. I make her frown and it actually helps identify a potential wrinkle site so we hit it before it even develops. I do the same with my face. It's preventative. It's an amazing gift I am giving her "

"Some of the Botox and fillers come from 'friends' or people that sell it and they come in vials marked B or F. B for Botox and F for filler. I naturally test it on myself first and if I am fine after a couple of days I give Britney say 1ml-2mls spread all over the face. It's safe and I or other mums I know who use it have had no problems. I also buy kits online and they start from \$150usd and some of the fillers come in a pre-prepared syringe and it's unlabelled and the Botox is often Botox like due to

brand name infringement products. Again I test on myself first and we use small amounts. I also using a numbing gel like the type you put on the skin before a tattoo to ensure her skins numb she finds it more uncomfortable than anything it doesn't really hurt."

"I lay her down we mark out the spots. I have used a guide for marking generic problem areas and I have her frown to see if there are potential from areas, In other words we hit before a frown area or line even develops we mark it with black dots. I fill a fine needled syringe, we use numbing gel and its over in amount 5 minutes. The same with the filler around lips I number her lips and we do like ¼ of a mil in each spot in tips of lips and along bottom lip area. We use ice after each session so as the numbing gel wears off she doesn't feel any pain. Works super well."

"I know what amounts to give her. I'd rather she be perfect and have a slightly pulled look than not. Some people say her eyebrows look a little pulled already. I think they look striking."

"I am a realist and I face the reality of tweens today unlike many parents who do not realise kids are growing up fast. I admire Lindsay Lohan's mum Ali for turning Lindsay into a child millionaire"

"I decided to inject her after begin super pleased with results on my face and one of the schools she was at I heard the other mums at the school gates were talking about which beauticians would give teens Botox injections and were you could buy back street Botox to use at home. "

"I heard about 12 and 13 year olds getting Botox and having waxing and didn't want Britney left behind. It's a nasty world out there. I felt if she started at 8 she'd be way ahead of the competition once she became a teenager. I am also a qualified beautician. I am more suited to knowing which beauty treatments she should have."

Britney and her mum became even more focused in January when they watched an under-10 beauty pageant. I won't name the pageant or we will get black listed but it was an eye opener a lot of mums were talking about Botox and Ifiller.s.

"Britney's starting in October doing pageants so we were doing some spying. All the mums backstage were talking about Botox, virgin waxing, fillers and plastic surgery. Its common place now for all ages of kids and its better I know what my daughters doing. Also because she's having it so early she will be really successful as the under-ten year old sections are dog eat dog,"

Kerry buys some of the Botox and restalyne off the internet spending £150 per 3 mil vial. She has a homemade kit of needles from the pharmacy and from a diabetic friend. I also buy 5 sand 10mil vials of fillers and Botox from our local 'beauty dealer'. It's comes from one of the school mums who has a friend. We laugh and call it our 'back street beauty parlour'. I then use a selection of needles usually a larger one that holds 5-10 mils to inject my daughter. I prefer the larger needle as it gives me a steadier hold and it's larger to grip,"

"I've never come across a bad batch despite the vials only being labelled B for Botox and F for filler. They are so cheap at between £75 to 150 depending on size and my dealer says they are the real thing. It's all safe and us mums all talk so we know,"

"I am not worried the products could be fake, watered down or potentially deadly....I believe that's over dramatisation on behalf of the media and I also test on myself. Look I am telling my story because all the other parents out their doing it are not. I am the realist here and nothing bad will ever happen to my daughter. I am her mum and I know what's best and she is super well looked after. I know were my daughter is all the time I bet half the parents watching don't know what their kids are up to and loo if a kid wants Botox they will get hold of it off the net or somewhere else better I do it than so hole in the wall back street beauty deal."

"To be honest if Botox was bad it would wear off in 3 months. I am not worried and Britney's young and healthy."

I gave my daughter her first injection of Botox in May last year for her 8th birthday. It was actually the day before so she was technically 7 years old and I talked about it and she was thrilled to be so grown up. Since then she's had her lips injected and had 3 sets of Botox on her forehead, around her eyes and also between her eyebrows. I kept her home one day from school as she had a slight headache. Other than that she has been fine."

"I know what Botox does when Botox is injected into a muscle, it blocks the nerve impulse from reaching that area, and as a result, the muscle weakens. As the muscle weakens, the skin overlying the muscle relaxes and the wrinkles in the skin gradually soften and often disappear so it can take a couple of days for the face to recover from the injections and the full effect to be seen."

Since then I have has worked as a beautician as well as freelancing at night-time for extra cash while Britney's granny sends her \$1000 a month. We have been living in a small two bedroom flat and we're good savers. All our money goes on beauty treatments. I save a lot buying from 'beauty dealers' plus me'm also providing tween beauty advice to other mums. I started letting Britney have manicures, pedicures and facials when she was 5 years old. My mum doesn't know about the Botox and frankly it's not her concern."

Britney has a monthly 'tweenie bikini wax' called a virgin wax and they are quite the rage

"The wax gets rid of her 'fluff'. The ladies who do it say it actually stops pubic hair developing and will save us a fortune in waxing and hair removal costs when she's older. What we remove is the pre-puberty hair called velus. It's fine but has to go otherwise she'll feel under confident. Her dad had dark skin and hair so I want to stop her being hairy at whatever cost,"

Britney has a little numbing cream, like that used for tattooing, put on the waxing area and then wax strips are used to remove any fluff – I want her to be confident

Britney quote: "I feel like a super model and if I do ballet or go swimming I don't have to worry. I feel like a teenager and I hold mummy's hand if I want to cry,"

"Yes the virgin waxing hurts just a little but it's over in a few minutes and she then gets to choose her nail polish for her manicure and pedicure. Britney's not stressed or anything she's healthy and happy."

"Bikini waxing for 8-12 year olds is rapidly becoming the norm in the United States with many salons reporting a 30 percent increase in young clients under 10 wanting the treatment. Kerry plans to have Britney get her eyebrows waxed in May and is hoping to get her daughters eyebrows lightly tattooed to an arched shape and is also considering a light pink tattooed lip liner that will be end of year possibly – I can do it myself as I am beauty trained

"That way Britney will have to wear make-up daily then as leaving the house with only tattooed lip liner and eyebrows will look odd and I can give her lessons. She is also studying singing, piano and writing her own songs. She's asked for a nose job and a boob job at 15 and I have found a clinic that will do boob jobs in Mexico at 14 so if she hasn't developed by then we're saving for that surgery."

I resent the fact people may call her an unfit parent or criticise her for home injecting and insisting her daughter undergo extreme beauty sessions. "I am offended by that. Beauty obsession is part of our culture. Britney and I cannot get enough of the latest treatments. I am glad I am creating a mini-me and I know Britney will make us millions.

QUESTIONS

Q. HOW LONG HAVE YOU BEEN GIVING YOUR DAUGHTER DO NOT USE HER NAME BOTOX? COMING UP TO A YEAR (since march 2010) AND ITS BEEN GREAT FOR HER CONFIDENCE

Q. WHAT MADE YOU DECIDE TO GIVE HER BOTOX??

Answer: Well I am a trained beautician and do it part-time. I give myself botox and lip fillers and I heard other mums talking about butyng botox off thier friends to give to their teenage daughetr. I wanted my daughter to be a star and beautiful and so as I have it I wanted her to try it because if you stop wrinkles even starting you never get wrinkled skin. My daughters now famous for being the youngest child to have non medical botox and she looks amazing and I know whats best

Q. DOES IT HURT HER

No we use a local nummer like when you get a tattoo and i only give her tiny amounts like 1/4 of what I'd get. I test it on msyelf first and she frowns and we decide togetehr were frown lines are and i give her small injections along there. she was a bit frightened first time now she actually tells me when its time to top up. its brought us closer and my daughter will be a star and get teh start i didn't get

Q. PEOPLE WILL SAY WHAT YOU ARE DOING IS OUTRAGEOUS AND DISGUSTING WHAT DO YOU SAY.

Firstly I am her mum and I decide whats best. I discussed it with her and she wanted it. I want to ensure she stays beautiful and its only samll amounts. As well anyone wh says she'll get frozen face is talking rubbish. Look at Nicole kidman she got frozen face then stopped using botox and now has frown lines. I use such a small amount as she grows it drains out of her system naturally and I use it too. People can criticise all they like but it will keep her beautiful. I think many people are just jealous she's so lovely talented and beautiful. I don't get in thier faces about thier kids running riot my daughters well behaved and I know where she is and shes loved and will be a super star

Q. ARE YOU ENDANGERING HER LIFE??

Absoluately not. Botox use is self regulated here and oevrseas. I am super careful and I only trust msyelf to do it. Sure I get it off the net or botox sellers but I test onmsyelf before hand and shes happy and healthy. People should get off thier high horse. If you wnat to call me the most hated mum in america fine but my daughter is going to be a star and have a life I can only dream of.

Q. WHAT ABOUT TWEEN WAXING?

Well that gets rid of the 'kiddie fluff' again we use a nummer and you can even have it done in new york. it means hair won;t develop and embarras her whens he's older. She is fine with it and feels so much more confident.

Q. PEOPLE ARE LIKELY TO BE HORRIFIED. what do you think about that?

I am a realist. I am not over sexualising her, or making her grow up fast the reality is these days kds are exposed to music and tv shows which are extremely explicit. I am carefully started young with an end goal. Its not abuse its a mums love and I am not mad...I care for my daughter which is alot more than i can say for many of the young kids roaming the streets and joing gangs. I say get real people and frankly I don't care if you hate me. I love my daughter she is prescious and she has star potential....she's note likely to run off the rails like Lindsay lohan and the liek because I am thinking 3 steps ahead and don't forget why is it ok for kids to have botox for medical reasons but not non medical - seriously...I am her mum and I know whats best and she doesn't want for anything.

YOU know what more harm would be dopne to her if she smoked or drank at her age and she doesn't so get a grip america...we live in a world of beauty and I am preventing wrinkles before they begin and doing it carefully and she's super confident

Q. what about pageants???

We're starting them later in the year and we went to one a while back and moms there were talking about botox. She'll be great in them and its another line to her resume. I do not force her to do it she wants to and if she were to say no more botox we'd discuss it and make a decision. I am not crazy I am a great mom my daughters fantastic and if you don't agree with what I am doing frankly talk to the hand because I know I am doing whats best for my daughter...honestly I live in the real world and its happening I have just had the guts to step up and say it is.

ALSO INTERVIEW BRITNEY/mikayala

Q. Do you like having botox and waxing?

It's great I feel like a super star and it doesn't hurt everyones so jealous

Q. Why do you like it?

Mommy does it, I don't want nasty wrinkles and I want to be famous and help people I love and it will help me

Q. Why do you want to do pageants??

I like looking pretty and doing routines and I want to win

Q. would u rather be playing with dolls??

I play with dolls and I practise routines and I play piano and I study and if I see a wrinkle I tell mommy.....I am quite grown up and if anyone upsets mommy I get upset too...she's the best
