Hey billy, my name is You
probably know is Jon Hoyle
Cheeky, the mean Stan

I don't know if you hear
the voices but I've been
in [redacted] for 2.5 months.

here is some advice I need
you to know if you don't
take it seriously you will DIE.

Life comes from growth
right? without growth you
would sit in limbo of
desperate for cannot have
stable growth without balance
of a foundation which ultimately
is for me as straight forward
in you desire and becoming
that through actions and steps
you desire like I really know.
but while humanly might be
overall because human love
is fake, it's better to be
better and will fall
much better and then get for
your work and then after

001

Please don't get it mistaken,
God is a valuable idol Yes,
but most of this is down
for the growth of independence.

→ Now 22 years ago evelyn
wanted me to go to earth
and reform hers out and
separate the humans, and
grow the strongest to
independence.

She wanted me to pick
a team mate and support
which I chose you
my doppelganger. So we
had to both be born with
memory block to prove that
anyone can do it if they
try.

We have always had a lust
for vanity, I know you
and I know you don't feel
like people are
being real with
you are just
that's why I

12/13/21 12:29 PM

feel like me
not human.

ghost asking for candy.

as long as it takes.

You should look up daniel
and nathan porter (pirate)

Hi, I'm Mackadam
I just wanted you to know
this.
You can't get what you want
unless what you want is to
die for me.
Have a question? look this over
in due time these things will
happen.

You will read this note.
You will know that soon the
water will rise, and you might
very well die.
You will understand who was
in your head.
You will understand where
you came from and why
you were so religious as a
child.
You will know who I am.
You will Die.
what are you dying for?

Just to name a few things.
Also, just wanted to let you
know that associated thoughts
are not a mental condition.

Thanks, Your Pirate buddy, Adam.

Life on earth is a middle zone, but heaven is just a buffer for evelyn who calls itself god but is not only a creator She is one who is not straight forward-but Puts on a front and then does for the sick desires of eyn. 22

So with that earth is just a matrix made of atoms, physical pain is real but not important, focus on soul growth.
The design of earth made by evelyn was originally my idea, but she put artificial systematics in it like the flesh reproduction systems.
things are not natural for the most peaceful or free and most importantly efficient way of making a planet of growth
