Dear Ms. Sidibe,

After viewing the recent pictures taken of you strolling around Santa Monica earlier this week, we at AcaiSupply.com have decided we can no longer sit back and keep our mouth's shut! Obesity is a major epidemic in the United States, and we would like to help you rid yourself of this terrible affliction. Life doesn't have to be this way.

It's time to prove Howard Stern and all of your naysayers wrong! We, along with Oprah agree that you DO have a bright future ahead of you in the entertainment business, and the only way you can reach your goal of someday winning that Oscar is by being active, fit, and most of all, healthy!

Thousands of people around the world say that Acai Supply's Acai berry products help them live a healthier life that is full of energy and vitality.

<http://www.acaisupply.com> has taken Acai Berry one step further by combining Acai extract with a combination of nutrients that help with weight-loss, increasing energy levels, and antioxidants that help promote healthier looking skin.

AcaiSupply.com would like to offer Ms. Sibide a ONE YEAR FREE SUPPLY of ACAISUPPLY.Com in return for her glowing testimonial after she sheds her unwanted pounds.

Please get back to me at your earliest convenience with your or your representative's shipping address so that we may ship out your first month's supply.
