Dear Jill,

As I'm sure you've heard, last August we launched our VividTV division, which is already in over 25-million households worldwide. And as I'm sure you know, you share the name of one of the women involved in the General Petraeus sex scandal.

Based on comments we're hearing from our many fans in the military and seizing on the tremendous exposure that current events bring to your name, we'd like to formally invite you to host our "VividTV Military Marathon," which will run for the entire month of January on Vivid TV.

The marathon will offer ten military-themed movies from our archive of over 2000 films, featuring some of the most iconic porn stars to ever put on (and take off) the uniform. Scheduled performers include Christy Canyon, Jenna Jameson, Savanna Samson, Allie Haze and many others.

I know that you support our troops and so do we, and what better way to show that support than to join us as a VividTV Host! I hope that you will contact me as soon as possible so we can begin pre-production.

We think this could be major...if you'll pardon the expression.

Sincerely,

Steven Hirsch
