Plan on the state dropping by twice a week unexpectedly. I don't feel comfortable with your alcoholism and animal droppings to be left the floor for my son to see or step on.

This is not a threat this is my home I am advising you I do not feel safe or comfortable with you stepping foot around me or my property. Pickups will be done on street or through Zuly. After you banged cursed and screamed in front of my son at my front door I no longer feel safe with you on my home property and I am advising you that doing so is trespassing.
