

Vice-President Palin,

I am Dr Billy Wayne Ruddick, founder/ceo/
accountant of Truthbrary.org and it was I
that interviewed you. I did NOT say I was a
War Vet. I was in the service - not military,
but United Parcel, and I only fought for my
country once - when I shot a Mexican who
came onto my property. (Coincidentally, just
like our Great President, I was sadly
prevented from joining the regular army on
account of bone spurs bein discovered in my
testies).

I have always admired you for TELLING THE
TRUTH about Obama's birth certificate and the
location of Russia. But ma'am, I do believe you
have been hit by a bullshit grenade and are
now bleedin' FAKE NEWS.

You used to hunt the most dangerous animals
in the country, like wolves and people on
welfare. So why hunt a fine citizen
journalist like myself?

I DEMAND an APOLOGY.

Dr. Billy Wayne Ruddick. Jr
