

To Whom It May Concern:

I Jennifer Hough, would like to drop charges against Kenneth Petty.

On the day that I said I was rape it is half true and half false. The marks on my neck was not from me being choke. They were hickies that I got the day before from someone else. I been knowing kenneth for many years. We grew up together, we went to the same day care center. We liked each other for a long time. I use to go out with him.

The day that this incident happen I was at the bus stop on my way to school. Kenny came up, and asked me where was I going. I told him I was going to school, but he told me he had something very important to talk to me about privately, so I went home with him. When we got there we started talking, and then we started making out. After that we got into an argument, than a fight. We started hitting one another. I told him I wanted to leave, but he wouldn't let me, because he said I was too upset. He asked to make love with me again. I said no. so we started arguing again. Than he told me if I would have sex with him, I can leave. So I did, because I was already late for school, and I just wanted to leave. I was so angry when I left his house, that before I left I picked up a water bottle and through it at him. He started running after me, I felled down the stairs. when he tryed to help me get up I told him I will start screaming. Then he told me to get the fuck out of his house, and started calling me names. When I got to school I told my friend what happen and she told me to go the office and tell them that I was rape, because even if I had sex with him the first time I didn't want to have sex the second time. Everybody in school took it out of proportion, saying this and saying that. Next thing I knew the cops was there. Everybody was making a big deal about everything. I am really sorry about everything I hope kenneth and his family will forgive me for all the trouble I caused him and his family. Maybe we could put this all behind us and continue the friendship we once had.

Kenneth, have always been a friend to me in the past. He have never disrespected me in any way. I think our feelings just got out of hand on that day. The more I think about it kenny may be guilty for telling me that I couldn't go home, until we have sex and make up, but he's not a rapist. Many times I was at his house, and he never took advantage of me. But again on that day our emotions got out of hand.
